Access to Internet Based Resources (Web access and Cloud Storage)

To access a School District Google Apps for Education (GAFE) account this form must be completed and returned to the school.

Student Name: _____
School: Beathie Elementary

Google Apps for Education (GAFE) is an Internet-based resource that utilizes web access and cloud storage. The Kamloops/Thompson School District can provide students with a district-managed Google Apps for Education account. This provides students with a powerful collection of online collaboration and productivity tools, as well as unlimited online file storage space to be used for educational purposes. Each student will have their own secure login and password to access their account.

In order for students to use GAFE, the School District needs to provide Google with students' names, schools and grade levels, and for clarity no other personal information. The School District is required to obtain the consent of students and their custodial parents before providing this personal information, as required by the British Columbia *School Act* and *Freedom of Information and Protection of Privacy Act*. In accordance with these *Acts*, students and custodial parents may provide consent or decline to consent (in which case the student will not be able to use GAFE), and may provide a further written response.

It is important to be aware that GAFE is an online service that is hosted outside of British Columbia and possibly Canada. Only Student names, schools, and grade levels will be disclosed to GAFE who hosts this service and will store the GAFE account information on secured servers located outside of Canada. While stored outside the country, information in your child's GAFE account may be subject to the laws of foreign jurisdictions including, in the United States, the USA Patriot Act. Privacy legislation requires that we inform you of this and obtain your consent to this arrangement.

Consent:

I understand that my (if student is signing) information or my child's (if parent is signing) information will be used for Google Apps for Education. This consent will be considered valid from the date at which it is signed until which point the student named below is no longer a student within the School District, unless any subsequent time the consent is revoked with written notice delivered to the School District.

Subject: Access to student Google Apps for Education accounts

To: Parents/Guardians,

It is an exciting time for teaching and learning in our School District as we pursue our goal of helping all students to develop the skills to become learners, thinkers, innovators, collaborators and contributors. As we pursue our educational goals, we recognize the importance of creating 21st Century learning environments that provide tools for students that are relevant to their daily lives. To that end, we are committed to providing all students access to digital technologies that will empower their learning and better prepare students to thrive in an increasingly digital world.

As a result, Kamloops/Thompson School District 73 has been working with Google Apps for Education (GAFE) to create a digital collaboration system. GAFE is designed specifically for universities and K-12 school districts and provides access to their files, in a collaborative way, anytime and anywhere, in a secure, private and ad-free environment, with more control and protection than an individual Google/Gmail Account. GAFE is currently used by hundreds of school districts and post-secondary institutions, with tens of millions of student accounts around the world.

As a BC school district, we are subject to the *BC Freedom of Information and Protection of Privacy Act*. In order for students to use GAFE, we will need to provide Google with their names, schools and grade levels. In accordance with the Act, on the reverse of this letter you will find a consent form that will permit us to disclose such information in order to give students access to this system. In accepting a SD73 GAFE account, your child accepts the responsibility of using the account in a responsible and appropriate manner further laid out in the guidelines found in School District Regulation and attachment that was signed upon School District registration.

Once consent is obtained, your student's classroom teacher will provide further instructions on how to access the GAFE system. If you have further questions, please visit our SD73 GAFE information site at: <http://sd73.bc.ca/gafe>, or do not hesitate to contact me at the school.

Sincerely,

Principal

To participate in the communication of a FreshGrade digital portfolio, this form must be completed and returned to the school.

Student Name: _____

School: _____

FreshGrade is a "digital portfolio" app that provides a platform for student portfolios to be shared with parents instantly on a smartphone, tablet, or computer. The student portfolios may contain personal information such as name, school, grade, marks for assignments, student work, photos, or audio/video recordings of the student and/or his/her work.

In order for parents to access FreshGrade, the School District needs a parent email address. The School District is required by the *Freedom of Information and Protection of Privacy* to obtain the consent of students and their custodial parents before the digital portfolio can be sent to the parent's email address. In accordance with this *Act*, students and custodial parents may provide consent or decline to consent (in which case the student's work will not be shared with FreshGrade), and may provide a further written response.

It is important to be aware that FreshGrade is an online service that is hosted securely inside of British Columbia and Canada. However, parent email accounts (and the information in them) may or may not be located on secure servers located outside of Canada. In addition, every now and then teachers may share a video/photo with more than one student in it that gets sent to a parent's email address (other than the parent of the original child). This then means that a photo with a child in it could go to a non-parent's email address (not in Canada) or could potentially be shared by that parent with others.

While stored outside the country, information in the email may be subject to the laws of foreign jurisdictions including, in the United States, the USA Patriot Act. Privacy legislation requires that we inform you of this and obtain your consent to this arrangement.

Consent:
I understand that my (if student is signing) information or my child's (if parent is signing) information will be sent to me and potentially other students' parents as described above. This consent will be considered valid from the date at which it is signed until which point the student named below is no longer a student within the School District, unless at any subsequent time the consent is revoked with written notice delivered to the School District.

TECHNOLOGY: STUDENT ACCEPTABLE USE
EXPECTATIONS FOR STUDENTS USING DISTRICT TECHNOLOGY RESOURCES

The following are expectations for students accessing the Internet and e-mail through the District's/Schools' networks. Students agree to the following terms and conditions.

Inappropriate material: I will inform my teacher or principal if I come across any site, material information or situations that makes me feel uneasy or uncomfortable, or that I believe may contain inappropriate material. I will not respond to a message sent to me that makes me feel uneasy or uncomfortable. I will not post, send or download inappropriate material.

Respect for other people's personal information: I will not post personal information about other people, including family members, fellow students, teachers, District employees or friends. Posting student's own information on the Internet: I will not post my personal information anywhere, including my homepage if I have one, through the District or School Internet server. I may however, post school projects and work on the Internet as approved by my teacher. Just as I have been warned in the past about not meeting or talking to strangers, the same is true for using the Internet -- I will not meet with anyone I talk to on the Internet without my parent or guardian present.

Electronic Mail: Electronic mail is an electronic messaging system which delivers messages through the Internet. Electronic mail allows any Internet user to communicate with another user or group of users through the District or School server. I understand that using e-mail will be at the discretion of the school. The students will ONLY communicate with District provided e-mail addresses.

School rules apply: As a student, I understand that all of the rules of expected conduct, appropriate language, fair and respectful comments, and responsible behaviour of a School District No. 73 student and the consequences for breaking those rules apply to my use of any District technology resource, including posting and using services on the Internet. I understand the consequences for breaking those rules may result in the limitation or withdrawal of the privilege of having access to the District or School technology systems and of having Internet access. More specifically, without limiting the above, I agree that:

- I will not do anything illegal.
- I will not breach my responsibilities as a student under the *Student Acceptable Use – Student Use of District Technology Resources Consent* when using the District's technology systems or the Internet.
- I will not break any regulations regarding student conduct established by the District or my School.
- I will use appropriate language on the Internet, and any statements of opinion that I make will be respectful, fair and not malicious.
- I will not engage in any financial transactions or cause any damage or losses to any person in using a District electronic communications system including posting and using services on the Internet.

I understand that I am personally responsible for my actions, errors and omissions in using a District electronic communications system and accessing the Internet. I further understand the consequences for failing to comply with the terms and conditions of these regulations may well exceed school disciplinary actions, and may include criminal investigations, civil suits or both.

Responsible Use of the Resources: I agree to use my time on-line effectively, in posting and using services such as browsing and downloading files. I agree to keep my password secret.

Plagiarism: I agree that I will not copy information and claim it as my own.

Copyright: In the event that I wish to copy any copyrighted work, if I do not already have legal permission to copy that work, I will ask the original author for written permission to use the graphics or any copyrighted works, including works of art, compositions, text, symbols, sayings, cartoons, excerpts, and quotations. I agree that I will give written credit for sources of information for my work.
